

Bennelong Foundation Grants

Aims to enhance community wellbeing and provide opportunities for positive and lasting change in our community.

The Foundation seeks to support programs that respond to an identified area of need in the community that are presently not being addressed, or that take a new approach to problem solving. Ideally, such programs, if successful, should be able to be replicated in other locations or contexts. The preference is to assist organisations that receive little or no government funding and are not currently the benefactor of substantial philanthropic support.
