

# Community Education Program Grants

Supports sustainable programs for Australians under the age of 25, promoting ongoing education and skills making a significant difference to the lives of participants.

Since starting in 1994, Ansvar's Community Education Program (CEP) has provided a range of grants contributing over \$15 million to help fund over 300+ different charities and not for profit organisations with a focus on supporting the education and life skill development needs of disadvantaged young Australians.

Ansvar's Community Education Program provides a range of grants to organisations supporting Australian youth through programs that fall under two categories – Empowerment and Education, and Outreach and Support.

**Empowerment and Education:**

- Programs within this category must provide opportunities to develop positive values that lead to healthy lifestyle choices and a positive contribution to our community.

**Outreach Programs:**

- Programs within this category must support youths who are at risk or are already experiencing difficulties (such as drug and/or alcohol abuse) through rehabilitation and/or skills training.

**Does my organisation qualify?**

- Are you a registered not-for-profit with DGR status?
- Do you seek funding for a specific program?
- Does the program you want funding for target Australian youth aged under 25 years?
- Is the program intended to be sustainable beyond receiving a grant from Ansvar Insurance?
- Does the program fit into either of these categories (Empowerment and Education or Outreach Programs)?
