

HP Kids Fund

Supports equal access to technology in Australian classrooms through the distribution of \$10,000 grants. Grants can be used towards the purchase of HP technology to encourage STEM learning and development in the classroom.

HP Kids Fund is a new half-a-million dollar program created by HP Australia, as a sign of their commitment to education and the future of Australian school kids. Through this fund, HP champions innovation by enabling technology to be used by Australian schools to further Australian kids' STEM learnings.

HP Kids Fund runs four intakes per year, providing a total of 50 grants throughout the whole duration of the program and each grant is valued at \$10,000 to be used towards the purchase of HP technology.

All teachers and principals in Australian schools are eligible to apply.

Step 1: Take a short, engaging video (max. 60 seconds) describing how this grant could:

- Help students at your school be more innovative
- Help your students achieve better STEM learning outcomes

Step 2: Fill in the application form and upload your video.

Winners will be announced on 19 November 2018.
