

# Fostering Integration Grants

Aims to support our multicultural and diverse community by building our social cohesion and keeping communities strong, cohesive and prosperous.

The Australian Government is inviting organisations in an open process to apply to deliver grants under the Multicultural Affairs and Citizenship Program – Fostering Integration Grant Scheme from 2022 to 2023.

The underlying principles of the Fostering Integration Grants are to:

- Assist migrants to integrate into Australian social, economic and civic life
- Support small culturally diverse community organisations and groups in Australia that provide cultural activities, and community programs and events
- Build upon Australia's multicultural success with a particular focus on building social cohesion.

Australia is a multicultural society. Almost half of our current population was either born overseas or has at least one parent born overseas. We have flourished in part thanks to our multicultural and multi-faith diversity, underpinned by our inclusive national identity and shared Australian values. We do not take our unity and prosperity for granted.

The grant opportunity seeks applications under two project types:

- Project 1 activities will support the integration or capacity building of recently-arrived migrants and multicultural communities
- Project 2 activities will support the minor fit out, extension or upgrade of existing community spaces and amenities.

A separate application must be submitted for each project or development proposal. It is expected that each project will be completed within 12 months, from time of grant agreement signing and execution.

To be eligible you must be a not-for-profit organisation, which is legally registered in Australia and be one of the following entity types:

- Company
- Indigenous Corporation
- Cooperative
- Incorporated Association.
