

ACF Boost

Enables Australia's independent artists, small groups and arts organisations to leverage private sector support through a matched funding 'boost'.

ACF Boost is a matched funding program for independent artists and small arts organisations using the Australian Cultural Fund (ACF) platform. Participants in the program leverage private sector support raised through an ACF campaign with a small, matched funding 'boost' from Creative Australia.

ACF Boost consists of matched micro-grants up to \$5,000 that are granted to artists and organisations using the ACF platform, with projects running across a specific timeframe.
