

# Open Technology Fund - Internet Freedom Fund

Supports innovative internet freedom projects, including technology development, research, digital security projects, and convenings.

The Internet Freedom Fund is the primary opportunity through which Open Technology Fund supports innovative global internet freedom projects. These projects are focused on technology development and implementation, but can also include applied research, convenings, and digital security projects. See below for more details about each category.

OTF prioritizes projects coming from individuals or organizations who are applying for the first time, identify as under-represented within the field, and address areas that are underfunded.

Accepts applications on a rolling basis and is done in a two-stage-process. Applications are submitted as concept notes, upon positive review, OTF invites the applicant to submit a full proposal.

Funding categories:

- Technology Development
- Applied Research
- Digital Security
- Events and Community Convenings.

Individuals or organizations (for-profit or nonprofit) of all ages irrespective of nationality, creed, or sex are eligible to apply.
